

Falcon Overniter

When your holiday's over—park your camper in the drive.

Vehicle illustrated with optional GS Rally Pack, and driving lights.

Your motel on wheels.

Lead a double life and love it!

Think of the possibilities. Your ute can be a workmate during the week and a playmate for the weekends and holidays. You can take a luxury motel room right away from the beaten track! What's more, Overniter is the only ute that's built to take a camper . . . complete with large capacity radiator, heavy duty shock absorbers, tie down kit and heavy duty battery, and alternator. There's even a trailer wiring connection.

Look what you get with Ford Overniter
